

REVERED SERIES

# SACROSANCT

CABERNET FRANC 2017 | APPELLATION: OKANAGAN VALLEY (VQA)

## HARVEST NOTES

The 2017 vintage had a slow start with cool days and a lot of precipitation leading to flooding. Bud break started around 14 days later than 2015 & 2016, only a few days off the 15-year average. As the season progressed, months of hot, dry conditions allowed for the vineyards to catch up and hit all the expected key developmental stages. With the drought conditions, forest fires hit the West Coast. Smoke provided the benefit of a buffer for heat through the intense summer sun, helping to moderate accumulation of sugars and loss of acid. This also led to humid days and increased disease pressure; extreme diligence was rewarded by healthy and clean fruit. The nights cooled off towards harvest, allowing for great evolution of fruit flavour without any spikes in sugars while maintaining a bracing acidity.

## WINEMAKER'S NOTE

*Colour:* Deep and rich garnet.

*Nose:* A complex nose of bright brambly berry, cherry and plum along with cigar box and sage, underlined by strong earthy aromas.

*Palate:* The wine opens with strawberries and raspberries carried by a tannic wave; through the mid-palate the earthiness of the wine develops and persists. On the long finish, the chewy tannins linger and the fruit returns. Sacrosanct has a beautiful texture and shows great balance from the start to the harmonious finish.

*Food Pairing:* Charcuterie boards, particularly with English cheddar and harder, saltier cheese. The earthiness of the wine makes it a perfect pair for wild game or duck.

## WINEMAKING

Some of the oldest grapes in the Valley, these Cabernet Franc grapes came from our Skaha Bench neighbours, Matheson Creek Farm.

In late October, the fruit was hand harvested at 25.0° Brix, 6.8g/L TA, and pH 3.45, and hand destemmed into a clay amphora. The amphora was sealed and left for fermentation using only the indigenous yeast population.

After 9 months on skins, the amphora was gravity drained and pressed using a small, ratchet-driven basket press. The wine settled for a week before the heavy sediment was racked off in preparation for bottling unfiltered and unfiltered.

## VARIETAL PROFILE

100% Cabernet Franc

Total acidity	4.65g/L
Final pH:	4.01
Residual Sugar:	0.1g/L
Alcohol:	13.9%
Cases Produced:	60 terracotta bottles 30 cases (glass bottles)
CSPC:	129815 (terracotta bottle) 129806 (glass bottle)
